

Fundamentals of Training and Trainer's EDGE

TIDEWATER COUNCIL, BSA

The Fundamentals of Training & Trainer's EDGE are for anyone interested in different training methods. It will equip you with ideas, techniques, and materials for improving presentations by enabling you to select approaches that will communicate your messages most successfully, and with PIZZAZZ!!

In Fundamentals of Training, participants learn the tools of good training including characteristics of good trainers, how people learn and training methods.

Trainer's EDGE emphasizes the importance of "experiential learning," or learning by doing, as well as numerous other contemporary training strategies. These strategies can then be applied to a wide range of training programs. This course builds on what you learned in FoT.
