

# Fundamentals of Training

**Fundamentals of Training** is the first part of BSA's three-part train-the-trainer continuum (T3) for both youth and adult trainers. This course introduces new Scouting trainers to teaching techniques and skills.

The course will help you, regardless of their experience, present effective training. It will also help those who might have trained for other organizations to learn BSA's preferred training methods and help freshen up the skills of current BSA trainers.

Upon completion, new trainers will be able to apply the techniques they have learned across the BSA's leadership development programs, from unit level youth leader training taught by youth for youth, to position-specific and supplemental training for adult leaders.

**WHO SHOULD ATTEND?** All Pack Trainers (required to be 100% Position Trained per council policy). All district and council training team members and others wishing to improve their BSA training skills. At the conclusion of the training, participants will be able to:

- Understand the principles of how people learn.
- Understand four primary methods of instruction used by the BSA.
- Practice the BSA's training techniques.
