The James River Adventure Base offers six comprehensive and exciting high adventure programs. Located just minutes away from Historic Jamestown, the location offers opportunities for all ages and skill levels!

James River Adventure Base

SCUBA (Open Water Certification):

Earn your Open Water Scuba Certification and your Scuba Merit badge! Participants must have earned the Swimming merit badge prior to camp. This is entry level for SCUBA diving. With this certification, it is possible to dive anywhere in the world. Unlike many certifications, the Open Water Certification never expires. The course consists of three parts: Classroom, Confined Water, and Open Water. Each component must be completed to achieve the course certification.

Fish Camp:

Expert anglers will instruct Scouts about the environment and what influences fish behavior. Imagine the enjoyment of catching your own fish and learning how to filet and cook it for dinner! Participants will have the opportunity to fish in various locations including lakes, rivers, and the open water of the Chesapeake Bay using boat, pier, and shore casting techniques.

Canoeing Trek:

The James River, originally scouted by Captain John Smith himself, has miles of shoreline that has changed very little since the years of the first English settlers. Participants get to explore along the banks of the Historic James River while having the opportunity to earn their Canoeing merit badge and the 50 Miler award! Participants will explore along the John Smith National Historic Trail.

James River Experience:

Participants spend a week long summer camp experience along the banks of the Historic James River. PEX offers a unique experience for our participants to undergo a variety of adventures that Pipsico has to offer within, and outside, the property of the camp, while broadening their horizon of the Scouting Movement. Camper's will enjoy several pieces of the Pipsico program, along with local attractions PEX is a physically demanding base camp experience that sets the camper up for high adventure activities. Participants rotate through these programs with activities and instruction from our highly skilled and experienced staff. Highlights from the week will include a Beach bonfire and cookout, mountain biking, tubing on the river, paintball, and of course the highlight.... A trip to Busch Gardens!!

Sail Hampton Roads:

This event is designed to provide older Boy Scouts and Venturers with the opportunity to experience a full week of sailing including port visits every night along the James and Elizabeth Rivers. Life aboard is not a luxury cruise; rather it is a continuous learning experience aboard a working sailboat.

All members of the crew will have the opportunity to successfully operate their boat while underway. Highlights include a cookout and port visits to Nauticus in Norfolk, a tour of the battleship USS Wisconsin, and the Mariners' Museum, ending in a seafood dinner at Smithfield Station.

Captain John Smith Experience:

This all new exciting adventure program will take the participants into an interactive, open ended scenario approximating the circumstances of the settlers of Jamestown. Participants are placed into a scenario where their decisions will directly change the outcome of the events around them.

Everything from making money for the Virginia Company, to finding sources of food and water, to relations with the native population will be left in the hands of the participants.

Don't miss out on the fun and adventure! All programs can be registered for on a provisional or unit basis. Spots are expected to fill up quickly, so please go to www.PipsicoBSA.com for registration forms and more information! Each activity does require participants to pass a BSA Swim Test.
